Press Release

FOR IMMEDIATE RELEASE

ADITUS Medical Announces Approval of a Patent for Impedance Controlled Electroporation

LUND SWEDEN, November 9, 2000 — **ADITUS Medical AB** today announced the approval of a patent for Impedance Controlled Electroporation.

"This means a complete revolution in the Electroporation market" says Bernt Böhmer, Director Research & Development and one of the founders of the company. Mr. Böhmer continues: "Using this technology, the users will be able to receive a satisfactory electroporation result every time without being an electronic expert."

Founded in 1997, **ADITUS** Medical is a pioneer in the field of Intelligent Electroporation and a provider of flexible, easy-to-use and powerful Electroporation devices for research and laboratory use in vivo & in vitro. Based on its patented technology for Impedance Controlled Electroporation, ADITUS develops unique devices using the impedance measurement as a feedback for optimum setup and control of the Electroporation process.
